

**Wall Mount Bracket for 2U Rack Mount Boxes or Equipment**

- Lightweight yet extremely reliable, this **2U** wall-mounted vertical server rack is the right solution where space doesn't allow for conventional racking - under a desk or workstation (where it mounts horizontally), on a smaller wall, or on almost any other even surface.
- Access to mounted network equipment and cables is increased because the rack hangs flush to the wall in any orientation.
- The rack is designed to install with ease, all hardware and anchors for both wall and equipment mounting are included.
- It features heavy-duty, high-quality cold rolled steel, welded construction and a black powder coated finish for durability.
- The product supports standard 19" rack mount servers, network equipment and rack mount boxes to a maximum weight of 44 lbs., evenly distributed.
- 3.75" wide x 4" high x 19.25" long.

**Complies with: CE, RoHS, EIA/ECA-310-E, DIN 41494, IEC-60297-3-100**
