Introduction:

The Fiberdyne *WDL288* is an indoor wall mount fiber splice enclosure with the capacity to splice 288 single fusion splices. The enclosure features 12 slots to hold up splice trays designed for up to 24 splices and 4 storage spools for cable slack. The enclosure has multiple cable entry ports on the top and bottom with cable tie down points to secure installed fiber cables. The enclosure features 2 doors with locks that open independently.

General Specifications:

Dimensions: 17" H x 21.2" W x 5" D
 Splice Trays: (12) FST-2020-SS*
 Material: 16 Gauge Steel Black Powder Coat

*Ordered Separately
