Dear Valued Customer,

Fiberdyne Labs, Inc. is committed to providing the highest quality products, fast delivery and low prices. The recent and ongoing tariffs have affected everyone in the Telecommunications Industry. Tariffs and higher shipping rates are driving prices up for many parts and subcomponents of products. Please be patient as we navigate through these difficult times.

Our quotes have always been valid for thirty days, however with tariffs changing we need to now decrease that timeframe down to seven days. Also, all past pricing needs to be reevaluated. Please request new quotes for all items currently being purchased from blanket orders and historical pricing.

We value your patronage and will do our best to continue to provide you with the items you need. Please contact your Fiberdyne Salesperson for up-to-date pricing and availability.

Thank you,

A. Peter Polus III
