

Introduction

Fiberdyne Labs Fiber Test Tote allows for single fiber up to 20km test spans. Available options include:

- Singlemode
- Multimode (62.5/125, 50/125)
- Length up to 20km

Required lengths is specified in the last 3 digits of the part number i.e. 10km. Each end has 3 meters of 3mm jacketed fiber exposed for added durability and can be terminated with a variety of connector types. Combine (2) reels for full duplex applications.

Part Number	Description
F1C1BBXGC6610KM-3mm	Fiber Test Tote (Multimode)
F1C1BAXGC6610KM-3mm	Fiber Test Tote (Singlemode)
